

RAMS Field Pet Policy

Policy, while within the boundaries of the leased land at the RAMS field:

- **Leash & Control Requirements**

All dogs (or any pet) must be on a leash. All pets must be under the control of the owner or a designated person. A pet may never roam freely about.

(A pet is NOT considered under control while dragging a leash, running free and unattended.)

- **Waste Disposal**

You must clean up after your pet. Your pet's business is the owner's business.

(Pick up poop and dispose of it in an appropriate container)

- **Noise Control**

Pets should not make continuous noise or disturb others.

- **Liability for Damage**

Pet owner is 100% responsible for any damage your pet causes to RAMS club property or another person's personal property. RAMS Club is in no way liable. Our Club is for Flying Sport Enthusiast, not a Pet Day Care.

- **Guest Responsibility**

If you bring a guest, the club member who invites is responsible for ensuring the guest understand and follow these rules.

(If damage occurs, the member who invited the guest is responsible as if it were their own pet)

- **Event Flyers**

Event flyers should clearly state the pet rules for the RAMS Flying Field.
