        - Reg- $1072.05
        - 50/50 $35
- Giant Scale Event: Sep 15-20 –CD George Welcome

Current Business and status updates:

- Current roster has 85 members.
- Padget Spencer and Gray Kirby have donated an AED to the club. The AED is located in the Hawks hanger over the power panel. Pending: Padget and Gray will have a video training for all club members who are interested. Planning for October
- Butch is working on getting an estimate on Spectator Parking signs. He got them free from a friend. Do we have the signs now?
- Parking passes for events were reviewed. We should probably try to take care of guest first. No specific plans are in place, but it is important to communicate any potential changes.
    - John Welcome discussed the pricing and what another club is doing.
- Should the club consider purchasing lights for the Heli events instead of renting? Continued for further information on pricing.
- Consideration should be made to reward those who helped with special projects (i.e. electric project) and CD should be taken out to dinner to thank them for their extra efforts

New Business:

- Non-profit recreational LLC
    - TaxID/EIN (pending)
    - Advantages
        - Corp Bank Account
        - Website with more features
        - No tax filings
    - Special thanks to Padget for working on this.
- Please make sure motor tuning is done at the end of the flight line and not at the pilot station. If you see this occurring, please remind the pilot to move away from the pilot station.
- Reminder that we still have the club generators and we might consider putting them up for auction at the giant scale event.

50/50 Drawing: Randy Covington won; the club on received $35.

Meeting closure: John W motioned; John T seconded; approved unanimously
